## EDITORIAL

I warmly thank the councilors who have worked for the municipality over the last 6 years.

After reflection on the electoral program, it is now time for action. The new council is installed, including 10 new councilors who have just taken over the municipal budgets!

As planned in February, no major investments for this year, but management of cash flow. The payment of the last invoices for the pump track, studies for the bridges, the absorption of the previous investment deficit, the payment of the capital of the loans and the roads, these 5 items constitute the bulk (72%) of the investment expenditure.

But the good news comes from the Departmental Council: the return of the PST (Territorial Solidarity Program) from July, with, to date, no certainty on the percentage of aid but hoping for a return of 35% of subsidies on municipal projects.

The pump track is now finished, and young people have already made this sports leisure area their own. An inauguration will be organized on Saturday September 5, 2026. A sports day with the presence of associations is planned but this will only be possible in June 2027, the 2026 diary is already full! This shows the great dynamism of municipal associations.

For this summer, the Pocket Money scheme is being renewed for young people aged 16/17 in the commune, and will take place from July 6 to 24. Young people can register at the Mairie by submitting their covering letter before May 31. We are looking for volunteers to support them.

The farmers' markets will resume, always with musical entertainment, and a refreshments bar will be provided by Guernates associations.
